Price: \$1,895.95

Your Online Resource for Coding, Billing, Coverage and Reimbursement.

A high volume of claims and complex hospital billing and reimbursement rules make it difficult to manage medical coding and regulatory changes. **RevenueCyclePro.com** is an online problem-solving tool that compiles content and data that hospitals depend on to answer questions about coding, billing, coverage and reimbursement.

- ← Coding, billing, coverage, and reimbursement information in a single source
- ← Quickly access the knowledge you need to solve revenue cycle and claims problems
- ← Minimize noncompliance exposure

Key Features and Benefits

Use **RevenueCyclePro.com** to quickly access medical code sets, vital referential information, tips related to Medicare and UB-04 billing, and to maximize your coding compliance efforts.

- **Quickly access all current CPT® and HCPCS codes, ICD-9-CM codes, DRGs, APCs, fee schedules and wage indexes.** Stay up to date on all code sets and rules pertaining to inpatient and outpatient services.
- **Access lay descriptions, code book annotations, images and exclusive Ingenix content.** Make sure that the procedure and diagnosis codes submitted on UB-04 electronic claims are valid, accurately assigned and appropriately linked.
- **Referential tools and online code crosswalks simplify coding and billing.** Save time with quick search results and relevant, up-to-date coding and billing content.
- **Easily crosswalk from CPT® and HCPCS codes to revenue codes and from ICD-9-CM codes to CPT® codes.**
- **LCD policies and medical necessity data.** Validate Medicare coverage and manage the ABN process to reduce denials.
- **Reimbursement tools.** Includes hospital-specific outpatient and DRG calculators, pass-through drugs and devices, APC and fee schedules. Validate expected Medicare reimbursement, identify underpayments and determine copayments.
